

Privacy Policy

in accordance with the GDPR

We are pleased with your interest in our company. Data protection is of particularly high importance to the management of STUBE 318 Public Relations Services (hereinafter also referred to as "STUBE 318 PR Services").

The use of the websites of STUBE 318 PR Services is generally possible without providing any personal data. If, however, a data subject wishes to make use of special services offered by our company via our website, the processing of personal data may become necessary. If the processing of personal data is necessary and there is no statutory basis for such processing, we generally obtain the consent of the data subject.

The processing of personal data, for example the name, address, e-mail address or telephone number of a data subject, is always carried out in accordance with the General Data Protection Regulation and in compliance with the country-specific data protection regulations applicable to STUBE 318 PR Services. With this privacy policy, our company intends to inform the public about the nature, scope and purpose of the personal data we collect, use and process. Furthermore, data subjects are informed via this privacy policy about the rights to which they are entitled.

STUBE 318 PR Services, as the controller, has implemented numerous technical and organisational measures to ensure the most complete protection possible of the personal data processed via this website. Nevertheless, internet-based data transmissions may generally have security gaps, so absolute protection cannot be guaranteed. For this reason, every data subject is free to transmit personal data to us by alternative means, for example by telephone.

1. Definitions

The privacy policy of STUBE 318 PR Services is based on the terms used by the European legislator when adopting the General Data Protection Regulation (GDPR). Our privacy policy is intended to be easily readable and understandable for the public as well as for our customers and business partners. In order to ensure this, we would like to explain the terms used in advance.

In this privacy policy we, among other things, use the following terms:

a) Personal data

Personal data means any information relating to an identified or identifiable natural person (hereinafter "data subject"). An identifiable natural person is one who can be identified, directly or indirectly, in particular by reference to an identifier such as a name, an identification number, location data, an online identifier or to one or more factors specific to the physical, physiological, genetic, mental, economic, cultural or social identity of that natural person.

b) Data subject

Data subject means any identified or identifiable natural person whose personal data is processed by the controller.

c) Processing

Processing means any operation or set of operations which is performed on personal data or on sets of personal data, whether or not by automated means, such as collection, recording, organisation, structuring, storage, adaptation or alteration, retrieval, consultation, use, disclosure by transmission, dissemination or otherwise making available, alignment or combination, restriction, erasure or destruction.

d) Restriction of processing

Restriction of processing means the marking of stored personal data with the aim of limiting their processing in the future.

e) Profiling

Profiling means any form of automated processing of personal data consisting of the use of personal data to evaluate certain personal aspects relating to a natural person, in particular to analyse or predict aspects concerning that natural person's performance at work, economic situation, health, personal preferences, interests, reliability, behaviour, location or movements.

f) Pseudonymisation

Pseudonymisation means the processing of personal data in such a way that the personal data can no longer be attributed to a specific data subject without the use of additional information, provided that such additional information is kept separately and is subject to technical and organisational measures to ensure that the personal data are not attributed to an identified or identifiable natural person.

g) Controller

Controller (or data controller) means the natural or legal person, public authority, agency or other body which, alone or jointly with others, determines the purposes and means of the processing of personal data. Where the purposes and means of such processing are determined by Union or Member State law, the controller or the specific criteria for its nomination may be provided for by Union or Member State law.

h) Processor

Processor means a natural or legal person, public authority, agency or other body that processes personal data on behalf of the controller.

i) Recipient

Recipient means a natural or legal person, public authority, agency or another body to which personal data are disclosed, whether a third party or not. However, public authorities that may receive personal data in the framework of a particular inquiry in accordance with Union or Member State law shall not be regarded as recipients.

j) Third party

Third party means a natural or legal person, public authority, agency or body other than the data subject, the controller, the processor and the persons who, under the direct authority of the controller or the processor, are authorised to process the personal data.

k) Consent

Consent of the data subject means any freely given, specific, informed and unambiguous indication of the data subject's wishes by which he or she, by a statement or by a clear affirmative action, signifies agreement to the processing of personal data relating to him or her.

2. Name and address of the controller

Controller in the sense of the General Data Protection Regulation, other data protection laws applicable in the Member States of the European Union and other provisions with data protection character is:

STUBE 318 PR Services
represented by the proprietor Peter Daniel Kromberg

Ketzerbach 25-28
35037 Marburg
Germany

Tel.: 06421 1832901
E-Mail: info@stube318.de
Website: www.stube318.de(<http://www.stube318.de>)

3. Cookies

The websites of STUBE 318 PR Services use cookies. Cookies are text files that are stored and saved on a computer system via an internet browser.

Many websites and servers use cookies. Many cookies contain a so-called cookie ID. A cookie ID is a unique identifier of the cookie. It consists of a character string by which websites and servers can be assigned to the specific internet browser in which the cookie was stored. This allows the websites and servers visited to distinguish the individual browser of the data subject from other browsers that contain other cookies. A certain internet browser can be recognised and identified again by the unique cookie ID.

By using cookies, STUBE 318 PR Services can provide users of this website with more user-friendly services that would not be possible without setting cookies.

Cookies enable us, as already mentioned, to recognise the users of our website. The purpose of this recognition is to make it easier for users to use our website. For example, a user of a website that uses cookies does not have to re-enter his or her access data every time he or she visits the website, because this is taken over by the website and the cookie stored on the user's computer system. Another example is a shopping cart cookie in an online shop. The online shop remembers the items a customer has placed in the virtual shopping cart by means of a cookie.

The data subject can prevent the setting of cookies by our website at any time by using the appropriate settings of the internet browser used and thus permanently object to the setting of cookies. In addition, cookies that have already been set can be deleted at any time via an internet browser or other software programs. This is possible in all common internet browsers. If the data subject deactivates the setting of cookies in the internet browser used, not all functions of our website may be fully usable.

4. Web fonts from Adobe Typekit

This website uses so-called web fonts provided by Adobe Typekit for the uniform display of fonts. When a website is called up, the browser loads the required web fonts into the browser cache in order to display texts and fonts correctly. For this purpose, the browser used by the data subject must establish a connection to the servers of Adobe Typekit. This gives Adobe Typekit knowledge that our website was accessed via the IP address of the data subject. The use of Adobe Typekit web fonts is carried out in the interest of a uniform and appealing presentation of our online offerings. This constitutes a legitimate interest within the meaning of Art. 6(1)(f) GDPR.

If the browser used by the data subject does not support web fonts, a standard font from the data subject's computer is used for the display of the website.

Further information on Adobe Typekit web fonts can be retrieved at <https://typekit.com/> and in Adobe Typekit's privacy policy at <https://www.adobe.com/de/privacy/policies/typekit.html>.

5. Collection of general data and information

Each time the website of STUBE 318 PR Services is called up by a data subject or by an automated system, a number of general data and information is collected and stored in the server log files. The following can be collected: (1) the browser types and versions used, (2) the operating system of the accessing system, (3) the website from which an accessing system reached our website (so-called referrer), (4) the sub-webpages which are accessed via an accessing system on our website, (5) the date and time of access to the website, (6) an internet protocol address (IP address), (7) the internet service provider of the accessing system and (8) other similar data and information that serve to avert danger in the event of attacks on our information technology systems.

When using this general data and information, STUBE 318 PR Services does not draw any conclusions about the data subject. This information is rather required in order to (1) correctly deliver the content of our website, (2) to optimise the content of our website as well as the advertising for it, (3) to ensure the permanent functionality of our information technology systems and the technology of our website and (4) to provide the information necessary for law enforcement authorities in the event of a cyber attack. These anonymously collected data and information are therefore analysed by STUBE 318 PR Services on the one hand statistically and, on the other hand, with the aim of increasing data protection and data security in our company in order to ultimately ensure an optimal level of protection for the personal data processed by us. The anonymous data of the server log files are stored separately from all personal data provided by a data subject.

6. Contact option via the website

Due to legal requirements, the website of STUBE 318 PR Services contains information that enables quick electronic contact with our company and immediate communication with us, which also includes a general electronic mail address (e-mail address). If a data subject contacts the controller by e-mail or via a contact form, the personal data transmitted by the data subject are automatically stored. Such personal data voluntarily transmitted by a data subject to the controller are stored for the purpose of processing or contacting the data subject. There is no disclosure of this personal data to third parties.

7. Routine erasure and blocking of personal data

The controller processes and stores personal data of the data subject only for the period necessary to achieve the storage purpose or if this is prescribed by the European legislator or another legislator in laws or regulations to which the controller is subject. If the storage purpose ceases to exist or a storage period prescribed by the European legislator or another competent legislator expires, the personal data are routinely blocked or erased in accordance with statutory provisions.

8. Rights of the data subject

a) Right of confirmation

Every data subject has the right granted by the European legislator to obtain from the controller confirmation as to whether or not personal data concerning him or her are being processed. If a data subject wishes to exercise this right of confirmation, he or she may, at any time, contact an employee of the controller.

b) Right of access

Any data subject whose personal data are processed has the right granted by the European legislator to obtain from the controller free of charge information about the personal data stored about him or her and a copy of this information at any time. Furthermore, the European legislator has granted the data subject access to the following information:

1. the purposes of the processing
2. the categories of personal data concerned
3. the recipients or categories of recipients to whom the personal data have been or will be disclosed, in particular recipients in third countries or international organisations
4. if possible, the envisaged period for which the personal data will be stored, or, if not possible, the criteria used to determine that period
5. the existence of the right to request from the controller rectification or erasure of personal data or restriction of processing of personal data concerning the data subject or to object to such processing
6. the existence of the right to lodge a complaint with a supervisory authority
7. where the personal data are not collected from the data subject: any available information as to their source
8. the existence of automated decision-making, including profiling, referred to in Article 22(1) and (4) of the GDPR and — at least in those cases — meaningful information about the logic involved as well as the significance and envisaged consequences of such processing for the data subject
9. Furthermore, the data subject shall have the right to be informed as to whether personal data are transferred to a third country or to an international organisation. Where this is the case, the data subject shall have the right to be informed of the appropriate safeguards relating to the transfer.
10. If a data subject wishes to exercise this right of access, he or she may, at any time, contact an employee of the controller.

c) Right to rectification

Every data subject whose personal data are processed has the right granted by the European legislator to obtain from the controller without undue delay the rectification of inaccurate personal data concerning him or her. In addition, taking into account the purposes of the processing, the data subject shall have the right to obtain completion of incomplete personal data, including by means of providing a supplementary statement.

If a data subject wishes to exercise this right to rectification, he or she may, at any time, contact an employee of the controller.

d) Right to erasure (“right to be forgotten”)

Every data subject whose personal data are processed has the right granted by the European legislator to obtain from the controller the erasure of personal data concerning him or her without undue delay, where one of the following grounds applies and insofar as the processing is not necessary:

1. The personal data are no longer necessary in relation to the purposes for which they were collected or otherwise processed.
2. The data subject withdraws consent on which the processing is based pursuant to Art. 6(1)(a) or Art. 9(2)(a) GDPR and where there is no other legal ground for the processing.
3. The data subject objects pursuant to Art. 21(1) GDPR to the processing and there are no overriding legitimate grounds for the processing, or the data subject objects pursuant to Art. 21(2) GDPR to the processing.
4. The personal data have been unlawfully processed.
5. The erasure of the personal data is necessary for compliance with a legal obligation in Union or Member State law to which the controller is subject.
6. If one of the above reasons applies and a data subject wishes to request the erasure of personal data stored by STUBE 318 PR Services, he or she may, at any time, contact an employee of the controller. The employee of STUBE 318 PR Services will arrange the erasure request to be complied with immediately.
7. If one of the above reasons applies and a data subject wishes to request the erasure of personal data stored by STUBE 318 PR Services, he or she may, at any time, contact an employee of the controller. The employee of STUBE 318 PR Services will arrange the erasure request to be complied with immediately.
8. Where the controller has made the personal data public and is obliged pursuant to Art. 17(1) GDPR to erase the personal data, the controller, taking account of available technology and the cost of implementation, shall take reasonable steps, including technical measures, to inform controllers which are processing the personal data that the data subject has requested the erasure by such controllers of any links to, or copy or replication of, those personal data, insofar as processing is not required. The employee of STUBE 318 PR Services will arrange what is necessary on a case-by-case basis.

e) Right to restriction of processing

Every data subject whose personal data are processed has the right granted by the European legislator to obtain from the controller restriction of processing where one of the following applies:

1. The accuracy of the personal data is contested by the data subject, for a period enabling the controller to verify the accuracy of the personal data.
2. The processing is unlawful and the data subject opposes the erasure of the personal data and requests instead the restriction of their use.
3. The controller no longer needs the personal data for the purposes of the processing, but they are required by the data subject for the establishment, exercise or defence of legal claims.
4. The data subject has objected to processing pursuant to Art. 21(1) GDPR and it is not yet clear whether the legitimate grounds of the controller override those of the data subject.
5. If one of the above conditions is met and a data subject wishes to request the restriction of personal data stored by STUBE 318 PR Services, he or she may, at any time, contact an employee of the controller. The employee of STUBE 318 PR Services will arrange the restriction of processing.

f) Right to data portability

Every data subject whose personal data are processed has the right granted by the European legislator to receive the personal data concerning him or her, which he or she has provided to a controller, in a structured, commonly used and machine-readable format. He or she also has the right to transmit those data to another controller without hindrance from the controller to which the personal data have been provided, where the processing is based on consent pursuant to Art. 6(1)(a) or Art. 9(2)(a) GDPR or on a contract pursuant to Art. 6(1)(b) GDPR and the processing is carried out by automated means, unless the processing is necessary for the performance of a task carried out in the public interest or in the exercise of official authority vested in the controller.

Furthermore, in exercising his or her right to data portability pursuant to Art. 20(1) GDPR, the data subject has the right to have the personal data transmitted directly from one controller to another, where technically feasible and provided that the rights and freedoms of others are not adversely affected.

To assert the right to data portability, the data subject may at any time contact an employee of STUBE 318 PR Services.

g) Right to object

Every data subject whose personal data are processed has the right, on grounds relating to his or her particular situation, to object at any time to processing of personal data concerning him or her which is based on Art. 6(1)(e) or (f) GDPR, including profiling based on those provisions. STUBE 318 PR Services will no longer process the personal data in the event of the objection, unless we can demonstrate compelling legitimate grounds for the processing which override the interests, rights and freedoms of the data subject, or the

processing is for the establishment, exercise or defence of legal claims.

Where personal data are processed by STUBE 318 PR Services for direct marketing purposes, the data subject shall have the right to object at any time to processing of personal data concerning him or her for such marketing, which includes profiling to the extent that it is related to such direct marketing. If the data subject objects to STUBE 318 PR Services processing personal data for direct marketing purposes, STUBE 318 PR Services will no longer process the personal data for such purposes.

Moreover, the data subject shall have the right to object, on grounds relating to his or her particular situation, at any time to processing of personal data concerning him or her which is carried out for scientific or historical research purposes or statistical purposes pursuant to Art. 89(1) GDPR, unless the processing is necessary for the performance of a task carried out for reasons of public interest.

To exercise the right to object, the data subject may directly contact any employee of STUBE 318 PR Services or another employee. In connection with the use of information society services and notwithstanding Directive 2002/58/EC, the data subject may also exercise his or her right to object by automated means using technical specifications.

h) Automated individual decision-making including profiling

Every data subject whose personal data are processed has the right granted by the European legislator not to be subject to a decision based solely on automated processing, including profiling, which produces legal effects concerning him or her or similarly significantly affects him or her, except where the decision (1) is necessary for entering into, or performance of, a contract between the data subject and a data controller, or (2) is authorised by Union or Member State law to which the controller is subject and which also lays down suitable measures to safeguard the data subject's rights and freedoms and legitimate interests, or (3) is based on the data subject's explicit consent.

If the decision

(1) is necessary for entering into or performance of a contract between the data subject and the controller; or (2) is based on the data subject's explicit consent, STUBE 318 PR Services will implement suitable measures to safeguard the data subject's rights and freedoms and legitimate interests, which shall include at least the right to obtain human intervention on the part of the controller, to express his or her point of view and to contest the decision.

If the data subject wishes to assert rights with regard to automated decisions, he or she may, at any time, contact an employee of the controller.

i) Right to withdraw data protection consent

Every data subject whose personal data are processed has the right granted by the European legislator to withdraw consent to the processing of personal data at any time.

If the data subject wishes to exercise the right to withdraw consent, he or she may, at any time, contact an employee of the controller.

9. Data protection provisions on the use and deployment of Google Analytics (with anonymisation function)

The controller has integrated the component Google Analytics (with anonymisation function) on this website. Google Analytics is a web analytics service. Web analytics is the collection, compilation and evaluation of data about the behaviour of visitors to websites. A web analytics service records, among other things, data about which website a data subject came from (so-called referrer), which sub-pages of the website were accessed or how often and for what duration a sub-page was viewed. Web analytics is primarily used to optimise a website and to carry out cost-benefit analyses of internet advertising. The operator company of the Google Analytics component is Google Inc., 1600 Amphitheatre Pkwy, Mountain View, CA 94043-1351, USA.

For web analysis via Google Analytics, the controller uses the additional code " _gat._anonymizelp". By means of this code, the IP address of the internet connection of the data subject is shortened and anonymised by Google if the access to our websites originates from a Member State of the European Union or from another State party to the Agreement on the European Economic Area.

The purpose of the Google Analytics component is to analyse the visitor flows on our website. Google uses the data and information obtained, among other things, to evaluate the use of our website, to compile online reports for us which show the activities on our website and to provide other services related to the use of our website.

Google Analytics sets a cookie on the information technology system of the data subject. What cookies are has been explained above. By setting the cookie, Google is enabled to analyse the use of our website. Each time a sub-page of this website, which is operated by the controller and in which a Google Analytics component has been integrated, is called up, the respective Google Analytics component automatically triggers the internet browser on the information technology system of the data subject to transmit data for online analysis to Google. As part of this technical procedure, Google obtains knowledge of personal data such as the IP address of the data subject, which among other things can be used by Google to determine the origin of visitors and clicks and subsequently to enable commission settlements.

By means of the cookie, personal information such as the time of access, the place from which access was made and the frequency of visits of our website by the data subject are stored. On each visit to our websites, these personal data, including the IP address of the internet connection used by the data subject, are transferred to Google in the United States of America. These personal data are stored by Google in the United States of America. Google may disclose these personal data obtained via this technical procedure to third parties.

The data subject may prevent the setting of cookies by our website at any time by using the appropriate settings of the web browser used and thus permanently object to the setting of cookies. Such a setting of the web browser would also prevent Google from setting a cookie on the information technology system of the data subject. In addition, a cookie set by Google Analytics may be deleted at any time via the internet browser or other software programs.

Furthermore, the data subject has the possibility to object to the collection of the data generated by Google Analytics relating to the use of this website and the processing of such data by Google and to prevent this. To do so, the data subject must download and install a browser add-on available at the link <https://tools.google.com/dlpage/gaoptout>. This browser add-on communicates via JavaScript to Google Analytics that no data and information about visits to websites may be transmitted to Google Analytics. The installation of the browser add-on is regarded by Google as an objection. If the information technology system of the data subject is later deleted, formatted or reinstalled, the browser add-on must be reinstalled by the data subject in order to disable Google Analytics. If the browser add-on is uninstalled or deactivated by the data subject or another person attributable to his sphere of use, it is possible to reinstall or reactivate it.

Further information and the applicable data protection provisions of Google can be retrieved at <https://www.google.de/intl/de/policies/privacy/> and at <http://www.google.com/analytics/terms/de.html>. Google Analytics is explained in more detail at this link [https://www.google.com/intl/de_de/analytics/](https://www.google.com/intl/de_de/analytics/).

10. Data protection provisions on the use and deployment of Google AdWords

The controller has integrated Google AdWords on this website. Google AdWords is a service for internet advertising which enables advertisers to place ads in the search engine results of Google and in the Google advertising network. With Google AdWords, an advertiser can set certain keywords in advance whereby an ad will be displayed in the search results of Google only if the user searches for a keyword-relevant search result. In the Google advertising network, ads are distributed to theme-relevant websites by means of an automatic algorithm and taking into account the previously set keywords.

The operator company of the services of Google AdWords is Google Inc., 1600 Amphitheatre Pkwy, Mountain View, CA 94043-1351, USA. The purpose of Google AdWords is to promote our website by displaying interest-relevant advertising on the websites of third parties and in the search engine results of the Google search engine and to display third-party advertising on our website.

If a data subject reaches our website via a Google ad, a so-called conversion cookie is placed by Google on the information technology system of the data subject. What cookies are has already been explained above. A conversion cookie loses its validity after thirty days and does not serve to identify the data subject. Via the conversion cookie, it can be tracked whether certain sub-pages, such as the shopping cart of an online shop system, were called up on our website. By means of the conversion cookie, both we and Google can determine whether a data subject who reached our website via an AdWords ad generated a turnover, i.e. made or aborted a purchase.

The data and information collected by the use of the conversion cookie are used by Google to produce visit statistics for our website. We, in turn, use these visit statistics to determine the total number of users who were referred to us via AdWords ads, i.e. to determine the success or failure of the respective AdWords ad and to optimise our AdWords ads for the future. Neither our company nor other advertisers using Google AdWords receive information from Google that could be used to identify the data subject.

By means of the conversion cookie, personal information such as the pages visited by the data subject are stored. On every visit to our websites, personal data, including the IP address of the internet connection used by the data subject, are therefore transferred to Google in the United States of America. These personal data are stored by Google in the United States of America. Google may pass on these personal data obtained by the technical procedure to third parties.

The data subject can prevent the setting of cookies by our website at any time by using the appropriate settings of the internet browser used and thus permanently object to the setting of cookies. Such a setting of the internet browser would also prevent Google from setting a conversion cookie on the information technology system of the data subject. In addition, a cookie already set by Google AdWords can be deleted at any time via the internet browser or other software programs.

Furthermore, the data subject has the option to object to interest-based advertising by Google. To do so, the data subject must call up the link [www.google.de/settings/ads](<http://www.google.de/settings/ads>) from each browser used and make the desired settings there.

Further information and the applicable data protection provisions of Google can be retrieved at <https://www.google.de/intl/de/policies/privacy/>.

11. Legal basis of processing

Art. 6(1)(a) GDPR serves our company as a legal basis for processing operations for which we obtain consent for a specific processing purpose. Where the processing of personal data is necessary for the performance of a contract to which the data subject is party, such as processing operations that are necessary for the delivery of goods or the provision of any other performance or consideration, the processing is based on Art. 6(1)(b) GDPR. The same applies to such processing operations that are necessary for the implementation of pre-contractual measures, for example in the event of enquiries about our products or services.

Where our company is subject to a legal obligation which requires the processing of personal data, such as for compliance with tax obligations, the processing is based on Art. 6(1)(c) GDPR. In rare cases, the processing of personal data may be necessary to protect the vital interests of the data subject or another natural person. This would be the case, for example, if a visitor to our premises were to suffer an injury and, as a result, his name, age, health insurance data or other vital information would have to be passed on to a doctor, hospital or other third party. In such a case, the processing would be based on Art. 6(1)(d) GDPR.

Ultimately, processing operations could be based on Art. 6(1)(f) GDPR. Processing operations which are not covered by any of the above legal bases may be based on Art. 6(1)(f) GDPR. This legal basis is available to us where processing is necessary for the purposes of the legitimate interests pursued by our company or by a third party, except where such interests are overridden by the interests or fundamental rights and freedoms of the data subject which require protection of personal data. Such processing is lawful because the European legislator particularly mentions it. In this respect, the legislator is of the opinion that a legitimate interest may be assumed where the data subject is a customer of the controller (Recital 47 sentence 2 GDPR).

12. Legitimate interests pursued by the controller or a third party

Where processing is based on Article 6(1)(f) GDPR, our legitimate interest is the conduct of our business activities for the benefit of the welfare of all of our employees and our shareholders.

13. Duration for which the personal data will be stored

The criterion for the duration of the storage of personal data is the respective statutory retention period. After the expiry of that period, the corresponding data are routinely deleted, unless they are still required for the performance of a contract or the initiation of a contract.

14. Existence of statutory or contractual requirements to provide personal data; necessity for the conclusion of the contract;

Obligation of the data subject to provide the personal data; possible consequences of failure to provide such data We inform you that the provision of personal data is partly required by law (e.g. tax regulations) or may also result from contractual provisions (e.g. information on the contracting party). In some cases, it may be necessary for the conclusion of a contract that a data subject provides us with personal data which will then be processed by us. The data subject is for example obliged to provide us with personal data if our company concludes a contract with him or her. Failure to provide personal data may result in the contract with the data subject not being concluded. Prior to providing personal data by the data subject, the data subject must contact one of our employees.

Our employee will inform the data subject on a case-by-case basis whether the provision of the personal data is required by law or contract or is necessary for the conclusion of the contract, whether there is an obligation to provide the personal data and what consequences the failure to provide the personal data would have.

15. Existence of automated decision-making

As a responsible company, we refrain from automated decision-making or profiling. You can download, save or print this privacy policy here as a PDF.

This privacy policy was, inter alia, generated using the privacy policy generator of DGD Deutsche Gesellschaft für Datenschutz GmbH, which acts as External Data Protection Officer Oberbayern, in cooperation with the data protection lawyers of the law firm WILDE BEUGER SOLMECKE | Rechtsanwälte.
